

## Cam Asman – Serving with e3 Ministries

June 2021

Hello Friends and Family,

This season has been a whirlwind of different changes and challenges.

Many of you have probably heard of the news of 215 Indigenous children being found buried in unmarked graves in Kamloops and the many more found across the country since then (totaling over 500 children so far found in unmarked graves). This has sent shockwaves in many of the people's lives that I spend time with but for many more this sadly was not found to be a surprise at all.

This uncovering does not reflect something of a "past issue" or "history" but actually reflects present issues of how Indigenous People are treated in Canada today.

Pray that this atrocity will be used for true reconciliation in our country and will open up conversations to actual change and create space for Indigenous people to thrive and to be heard.

Pray for those that have been triggered by past traumas in this time.

Hope you are all well and I appreciate you all,  
Cameron

P.S. Sheldyn and I as well as my sister went "halfies" on a house that we plan to move into at the end of the month.

P.P.S. Can't wait to catch up in the future as we move out of this life of restrictions and craziness, let's hope that is sooner than later :) I am always available for a chat.
